- Available in 1,2 and 4 Channel Kits
- 100m (328ft) Bluetooth Range
- Eliminates Live Work (ELW)
- Test Multiple Channels Simultaneously
- 10 Hour Battery Life

**Maximise
Safety**

**Eliminate
Live Work**

**Wireless up to
100m (328ft)**

**Purpose Built for
Heavy Industry**

The **SafeGauge DI Series** is designed to remotely measure clearances, tolerances and wear on machine components safely and efficiently - out of the line of fire.

Capable of measuring up to 10mm (0.39inch) of displacement with an accuracy of 0.01mm (0.0004inch) and wireless connectivity of up to 100m (328ft) away, the SafeGauge DI Series is recognised new industry standard.

Packaged in a rugged hard shell carry case, with built-in charging harness, the SafeGauge DI Kit is always ready to go at a moment's notice.

“The SafeGauge products are a great addition to our tooling inventory. Tooling that removes personnel from the footprint of the machine.

The MultiTool allows for easy testing of multiple circuits at the same time. Being able to measure multiple channels at the same time significantly shortens testing duration.”

-Hastings Deering

SafeGauge DI2 Kit

Standard DI Kit Sizes

- 1 Channel
- 2 Channel
- 4 Channel

Custom kits and accessories are available on request.

SafeGauge DI-04 Kit

Multi-Award Winning Engineering and Design

SafeGauge's hand-held MultiTool options allows technicians to monitor and record multiple channels simultaneously - delivering significant productivity gains.
