Purpose Built for
Heavy Industry

The **SafeGauge PT Series** allows technicians to safely and efficiently monitor high-pressure hydraulic and pneumatic systems up to 100m (328ft) away. Available in various sizes, these kits can also be configured with a variety of pressure ranges to suit every application.

Packaged in a rugged hard shell carry case, with bespoke high density foam moulding and built-in Charging harness, the **SafeGauge PT Kit** is always ready to go at a moment's notice.

Pair your kit with our wide range of accessories such as specialised fittings and adaptors, extension hoses and magnetic bases to enable completely hands-free pressure testing.

The available pressure range options include -1 to 5 bar, 25 bar, 100 bar, 300 bar, and 600 bar.

“The SafeGauge products are a great addition to our tooling inventory. Tooling that removes personnel from the footprint of the machine.

The MultiTool allows for easy testing of multiple circuits at the same time. Being able to measure multiple channels at the same time significantly shortens testing duration.”
